THE ENGAGEMENT COMPONENT FOR A SUCCESSFUL PAN-EUROPEAN OPEN SCIENCE INFRASTRUCTURE
SHAPING DISCOURSE AND ENGAGING STAKEHOLDERS FROM A RESEARCH LIBRARY PERSPECTIVE

The European Open Science Cloud will offer 1.7 million European researchers and 70 million professionals in science and technology a virtual environment with open and seamless services for storage, management, analysis and re-use of research data, across borders and scientific disciplines by federating existing scientific data infrastructures, today scattered across disciplines and Member States.

HOW IS EOSC PILOT HELPING TO BUILD THE EOSC?

A. Designing a Pan-European governance structure
B. Establishing a policy environment required for the effective operation, access & use of the future EOSC
C. Setting up National, Regional or Local Government Agencies
D. Evaluating the feasibility and value of data re-use through Science Demonstrators
E. Developing the interoperability requirements (architecture, mechanisms) and validate a portfolio of EOSC services
F. Engaging with stakeholders

THE ROLE OF RESEARCH LIBRARIES

RESEARCH INFRASTRUCTURE: actively participate in the development and support of services
SKILLS AND CAPABILITIES: support users in effectively navigate and leverage the EOSC policies and service portfolio
AWARENESS: raise awareness of Open Science principles and practices
